Altronix Offers Innovative Power and Transmission Solutions for Challenging Outdoor Surveillance, Access and Security Applications

Ensures Power/Data Delivery in Harsh Conditions and/or Remote Locations

Brooklyn, NY (November 19, 2015) – Altronix, the recognized leader in power and transmission solutions for the professional security industry, offers a number of products designed for surveillance, access and security devices in challenging outdoor environments. Altronix outdoor power offerings include the company's NetWay™ PoE Injectors, ReServ™ UPS, WayPoint™ Power Supplies, and eBridge™ EoC Transceivers.

“Our wide range of outdoor power and adaptive transmission solutions deliver power and data over virtually any cabling infrastructure for analog and IP surveillance, security and access devices while providing the highest levels of versatility, flexibility and simplicity,” said Alan Forman, President, Altronix Corporation. “These solutions are

increasingly critical as systems are being expanded outdoors to provide increased situational awareness.”

NetWay 1DWPM Hi-PoE Injector provides PoE, PoE+ or Hi-PoE (60 watts) power and passes data over CAT5E/6 up to 100m without repeaters. Utilizing Altronix’s LINQ™ Network Communication Technology, NetWay1DWPM offers built-in IP management, enabling remote control, monitoring and event reporting via email and SNMP trap message notifications. Additional features include internal surge protection, as well as auto detection and protection of non-PoE cameras and devices. NetWay1DWPM is housed in a lightweight IP66-NEMA4/4x rated enclosure, is UL Listed in the U.S. and Canada and CE Approved.

Reserv WP Video Surveillance Uninterruptable Power Supply (UPS) offers true sine wave regulated AC outputs and regulated DC outputs to simultaneously provide power to 12VDC and 24VAC devices during normal or power outage conditions, which can be more likely to occur in harsh outdoor environments.

WayPoint Outdoor Power Solutions provide a robust solution for PTZ and fixed cameras with or without heater/blower housings, IR illuminators, wireless transceivers and virtually any surveillance or security product that’s exposed to the elements. Designed for the harshest environments with IP66-NEMA4/4X rated enclosures, stainless steel lockable latches, and integral flanges to accommodate wall or pole mounting. A wide range of models in single- or multi-output are available providing 24VAC and/or 28VAC, including a version that accepts 277VAC input.

eBridge200WPM EoC/Cat5e Transceiver transmits Ethernet and power over coax up to 300m or CAT5e up to 500m without repeaters. It supports a single Hi-PoE (60W) camera/device or two PoE/PoE+ cameras/devices at 100Mbps full duplex. eBridge200WPM also offers built-in IP management utilizing Altronix’s unique LINQ Network Communication Technology that enables you to remotely monitor, control and

report power from anywhere. eBridge200WPM is housed in a lightweight IP66-NEMA4/4x rated enclosure, UL Listed in the U.S. and Canada and CE Approved.

PMK1 Pole Mount Kit is designed to simplify mounting and installation of any Altronix outdoor power and transmission solution. It accommodates 2" to 8" diameter poles, or up to 5" square poles.

Altronix Outdoor Power Solutions are proudly made in the U.S.A. and carry a lifetime warranty.
