**Altronix and ZKTeco USA Announce New Power, Biometrics and RFID
Access Control Integration Solution**

Trove™ Access and Power Integration Solution Increases Installation Efficiencies

Brooklyn, NY (March 21, 2018) – [Altronix](#) and [ZKTeco USA](#) have recently teamed up to deliver a new access control and power integration solution that simplifies board layout and wire management, greatly reducing installation and labor costs. Designed and manufactured to seamlessly integrate with [ZKAccess C3](#) and [inBio access control panels](#), [Trove2Z2](#) provides the versatility and flexibility to easily configure and install access systems.

“Our collaboration with ZKTeco USA provides system designers and installers with a highly efficient access control integration solution that makes installations faster, easier and ultimately more profitable,” said Alan Forman, President, Altronix Corporation.

Trove2Z2 is scalable to accommodate up to 32 doors. The removable backplane allows you to assemble and test your system prior to installation, saving time onsite, and reducing overall costs.

As noted by Larry Reed, CEO of ZKTeco USA, “Our ongoing goal at ZKTeco is providing customers with innovative yet simple ways to help further reduce the total cost of ownership when installing access control systems. Prior to Trove2Z2, manually running individual wire for large multi-door projects could be a challenge. However, thanks to this integration, our customers can now consolidate all their wiring which results in dramatic reductions in both installation time and materials. We greatly value our strategic partnership with Altronix and thank them for helping our customers.”

The Trove2Z2 Access Control and Power Integration Solution includes an enclosure, backplane, tamper switch, mounting hardware, and cam lock, along with ample room to accommodate back-up batteries.

Altronix offers a free Trove™ System Design Tool to further simplify the selection of both Altronix and ZKTeco USA products available at

About Altronix

Altronix Corporation is the leading designer and manufacturer of quality low voltage electronics for the video surveillance, security, fire, access control and automation markets. The company continues to enhance its series of products that deliver “More than just power” including LINQ™ Network Communication Technology, Trove™ Access and Power Integration, Pace™ UTP/Ethernet Long Range Ethernet Adapters, eBridge™ Ethernet over Coax Adapters, eFlow™ Power Supply/Chargers, NetWay™ PoE

Solutions, NetWay Spectrum Fiber Solutions, HubWay™ UTP Video Solutions, VertiLine™ Rack Mount Power Solutions, ReServ™ UPS Series for video surveillance, WayPoint™ Outdoor Power Supplies, and Strikelt™ Panic Device Power and Control. Altronix's U.S. corporate headquarters located in Brooklyn, NY with the latest manufacturing technologies for the highest levels of quality and performance. Altronix is an ISO 9001 registered firm. Altronix products are manufactured in the U.S.A. and carry a lifetime warranty. Visit Altronix at www.altronix.com.

About ZKTeco USA

ZKTeco USA is a leading provider of Biometric and RFID physical security solutions. Product offerings include Biometric and RFID access control panels & slave readers (fingerprint & RFID), standalone readers (RFID, fingerprint, face, finger-vein, and palm-vein), Elevator/floor access control panels, License Plate Recognition (LPR) Gate Controllers and Long Range UHF Readers, Turnstiles, Walkthrough Metal Detectors and wireless battery-operated biometric Smart Door Locks. Its solutions are multi-lingual and localized in over 18 different languages. ZKTeco USA designs specialized products for specific markets and provides local support to all its customers. Its U.S. facility includes a large experience center and warehouse in Fairfield, NJ. ZKTeco is a subsidiary of ZKTeco, a leading global developer of security and time management solutions. ZKTeco USA is synonymous with technical innovation, quality, speed-to-market and reliability. For more information, please visit <http://www.zktecousa.com/>.
