**Innovative
Surveillance and
Security
Solutions**

For decades, Pelco has been synonymous with video surveillance. We have continued to build on this strong foundation to bring new and improved surveillance and security solutions to life with products and systems that security professionals need — driven by **meaningful innovation**. And we're moving ahead with **best in class technologies** designed from the ground up specifically for professional applications that provide **superior performance, reliability and value**.

Integrating
Superior Technology
Leveraging
Full Integration
at the Device
and System Level
Providing
Customers with a
Comprehensive
Security Ecosystem

The continual trend for integrated surveillance and security solutions is changing the systems landscape. Today, every security element contributes to a **comprehensive security ecosystem** that's designed to **meet your specific business and operations** objectives. Whether you need a new system, want to expand a current system, or are looking for product-centric enhancements to implement new functionality, Pelco has you covered — from imaging solutions in virtually every form factor to powerful and intuitive VMS solutions that deliver **end-to-end control with confidence**, and all the accessories you need to complete the systems chain.

Partnering
with **Leading
Technology Experts**
to **Deliver
Unique and
Tailored Solutions**
Providing
Customers
with **What
They Want,
When They Need
it Most**

Advanced Technology Ecosystem

Today's specialized surveillance and security system solutions are integrating the best of the best in technology. That's why we continue to nurture and **partner with leading technology experts** from both within and outside of the professional security industry. Together, we're developing and delivering **unique solutions** for mainstream surveillance and security applications as well as **specialized vertical market applications** such as gaming, oil and gas production, city surveillance, and airports and seaports. By combining our industry-leading portfolio of innovative products and system solutions with the expertise of our technology partners and the industry's most expansive customer support network, Pelco is uniquely positioned to deliver integrated system solutions that **provide you with what you want, when you need it most.**

Customer Service
Technical Support
and Training
on a **Global Scale**
helping Customers
Maximize
Their Investment
and **Empower**
Their Business

Providing the right customer support at the right moment can make the difference between successful project deployments and expensive disappointments. That's why Pelco employs a **global support network** — to provide **personalized contacts and education programs** to ensure you have the internal knowledge and outside support you need. By maintaining world-class support, we're helping **maximize your investment and empower your business.**

Moving Ahead
By Your Side

Pelco delivers surveillance and security solutions that help **empower your business**. Our **personal engagement** with customers, resellers and technology partners drives the development and deployment of systems with **meaningful innovation**. It's the foundation we've built our brand upon from our origins as an independent company. Today as part of Schneider Electric, **we're moving ahead by your side** with the innovative technologies, system solutions and products that you need today and tomorrow, backed by the **best customer support** in the industry.

We've got it all covered.
