

# NEW & IMPROVED

## LISTEN APP!

A perfect value-added solution for group or individual exercise, especially for clubs without enclosed classrooms, the MYE Silent Group X Audio System by **MYE Entertainment** allows members to listen to group or virtual classes on their Apple or Android smartphones. Club members simply download the free AppAudio listening app from iTunes or

Google Play, then listen to motivational music programs and/or voice instructions on their smartphones. The MYE Silent Group X Audio System is compact, portable and easy to install. In addition to custom branding with company logo and graphics, the secure cloud-based MYE online marketing platform allows facilities to engage their membership with rewards programs, banner ads, special discount coupons, class schedules and direct messages.

## STYLISH STORAGE

**Cel re** lockers reinvent the locker room experience with an entire line of functional locker frames and beautiful locker doors that boldly represent any environment's desired style. Available in a variety of designs, Cel re lockers are exclusively paired with keyless electronic locks by Digilock, making security simple. Cel re now offers doors in high-pressure laminate in addition to dual-layer tempered glass or double-panel, pillow-formed steel. A variety of colors and customizations make Cel re the modern choice for any locker room.

## FURNISHING THE LIONS' DEN

Lindenwood University in St. Charles, Mo., challenged itself to develop a first-class Student Athlete Center, and chose furniture from **National Office Furniture**. The center serves outdoor sports teams in one location, including meeting spaces, locker rooms, study areas and offices. The building is also home to the Student Academic Success Center. The university selected a variety of National products for their durability, sustainability and style, such as seating personalized with the Lions' mascot. ## BOUNDLESS OPTIONS

New courtside LED displays from **Fair-Play** by **Trans-Lux** are a crowning addition to any athletic program — from high school to professional. Featuring a lightweight, modular design, the innovative courtside LED displays provide maximum versatility while increasing

fan engagement and facilitating sponsor-driven advertising revenues with their high visibility. The units feature padded tops and ends, which can be easily removed to access the cable tray or knobs for adjusting both display angle and alignment. These durable displays are offered as a stand-alone scoreboard, an LED display, a rear-illuminated sign or a non-illuminated sign. They are available in 5-, 8- and 10-foot configurations and are compatible with the company's existing EPIC control.
