Outstanding Success at Intersec Dubai

Galaxy just wrapped up a very successful showing at Intersec Dubai last month. We saw incredible turnout this year—in fact, the show had its biggest attendance of all time, with more than 31,000 visitors present. Attracting particularly strong interest were the latest updates to System Galaxy (particularly the Crisis Mode and Command Card features), new integrations, and the recently released PersonPoint and DoorPoint mobile apps. Better yet, GCS saw a number of new and exciting leads throughout the show, topping off an undeniably strong start to the year.

Galaxy Control Systems Makes a Strong Showing at Intersec 2016. ThomasNet. **Read more here.**

Don't Miss the Galaxy 2016 Roadshow!

Looking to bring greater efficiency and effectiveness to your security and compliance programs? Join us for the Galaxy 2016 Roadshow! We will be holding this free technical event at multiple locations nationwide throughout the year—each session will cover the latest best practices for upgrades/installations, our new mobile apps, cloud solutions, Q&A, and much, much more. The event is available **free of charge** (and even includes a light breakfast and lunch)—but space for each location is limited, so reserve your spot today. Contact Shelly Brown for more information at (+1) 301.845.6600 or **sbrown@galaxysys.com**.

System Galaxy Mobile Apps Now Available

Galaxy has released two mobile apps use with System Galaxy: DoorPoint and PersonPoint. The apps provide users with remote control of a number of core functions in System Galaxy. DoorPoint lets authorized users lock, unlock and pulse doors, check door status, and more. And with PersonPoint, users can activate and deactivate cardholders, review and send activity reports, and conduct searches using a range of data types. Download them today on Android or iOS!

Galaxy Vendor Spotlight

The Galaxy Vendor Spotlight is dedicated to bringing greater opportunities for our dealer network—each issue, gcs.news will highlight new and existing members of our dealer network, as well as the new products of our vendors.

DSI

Designed Security, Inc. (DSI) is a part of some of the world's busiest buildings. DSI, a Detex Company, has been making quality security products you can depend on right here in the U.S.A. for more than 30 years. They offer a full range of access management products to fit building aesthetics while meeting today's most demanding security requirements. That's why they're used in some of the world's busiest buildings. Products include optical and barrier style turnstiles, anti-tailgating devices, and a wide array of door control devices.

The entire DSI product line offered through Galaxy can be viewed in our January 2016 Dealer Essentials Pricebook.

About Us

Galaxy Control Systems Mission began with the evolution of intelligent access control. Galaxy Control Systems represents the evolution of Digital Systems Corporation, an award-winning defense contractor. Digital Systems developed a state-of-the-art computer-controlled, microprocessor-driven system for the covert surveillance and tracking of enemy submarines for the U.S. military. Digital also developed integrated hardware and software solutions to allow government & military agencies to make a successful transition from old, proprietary systems to systems like UNIX and Microsoft.

The intensive research and development from this program produced many technological breakthroughs, including the technology that led to the development of one of the security industries first intelligent access control panels and the creation of Galaxy Control Systems. We are a privately held company that has been under the same ownership for 35 years. At Galaxy, we pride ourselves not only on the quality of our products but also on the quality of our employees. It takes great people to share a common vision. Our vision is shared by the Design & Production teams, Sales, Manufacturing, Technical Support, Customer Service and Management to create an exemplary product with quality that will stand the test of time. Galaxy believes in its people & its products so much that we offer a 2-year unconditional warranty on all Galaxy products. The coverage of this warranty includes but is not limited to; tornadoes, floods, hurricanes, lightning and fire. Galaxy technical support is also available 24/7/365, for all of your technical needs. We would like to thank our valued dealer network, vendors, employees and everyone who has contributed to the success of Galaxy Control Systems.

Galaxy Control Systems Mission Statement

To ensure the success of our client's Access Control & Security Management Systems, Galaxy has dedicated itself to providing the highest level of technical support and customer service. By effectively supporting our authorized dealer network and servicing emerging end-user needs, Galaxy not only ensures its own future successes but also will facilitate the increasing integrity and professionalism of our industry. We will accomplish our goals by committing all of our human and financial resources to better serve our dealer network and the customers on whom we all depend.
